Base ClearCase® Intermediate

WINDOWS ▪ BASE CLEARCASE 8.0 ▪ WEB VIEWS ID: CC-INT-WIN-WEB-BASE-8

Overview

Recommended follow-on to the *Base ClearCase Fundamentals* course for software developers. This one-day, hands-on course covers parallel development aspects of the tool required for most software development efforts.

Prerequisites

- *Base ClearCase Fundamentals* course or equivalent ClearCase experience

Objectives

At the end of this course, students will understand the parallel development aspects of ClearCase and will be able to use Base ClearCase tools and procedures to accomplish typical software development configuration management tasks.

Outline

Diff Tool	Diff element versions
Merge Basics	Merge files and handle content conflicts
Directory Merge	Merge directories and handle name conflicts
Batch Merge	Use the merge manager for batch merge efforts
Checkout Special	Special circumstance checkouts (not end of branch)
Unreserved Checkouts	Working in parallel on single branch
Labels	Create and apply labels to VOBs
Pending Changes View	Preview and invoke merges from the pending changes view
Review	Daily life cycle UCM exercise
Report Builder	Create and run queries to locate ClearCase artifacts
