About Island Training

Island Training Solutions provides hands-on training for IBM® Rational® software tools. Co-founded by a member of the original ClearCase® development team and a technical training professional, Island Training offers a unique approach to teaching complex software products. Combining a modular strategy with their mobile training labs and on-demand production of course materials, Island Training delivers programs that meet the specific needs of each client. Hybrid classes, which allow an instructor to lead traditional classroom training at an onsite facility while simultaneously teaching remote students in a virtual classroom, are now available for the full curriculum. More information about Island Training is available at <http://www.islandtraining.com>.
