

ClearCase® Registry Administration

WINDOWS ■ BASE CLEARCASE 8.0 ■ DYNAMIC VIEWS

ID: CC-ADM-WIN-DYN-BASE-8

Overview

Recommended follow-on to the *ClearCase Advanced* course for individuals responsible for the health and maintenance of ClearCase VOBs and views.

Prerequisites

- *ClearCase Fundamentals* or equivalent ClearCase experience
- The ability to create VOBs and views

Objectives

At the end of this course, students will be able to use ClearCase commands and procedures to complete typical administrative processes. Students will be able to perform the following:

- Backup and restore
- Move and rename VOBs and views
- Maintain the integrity of the ClearCase database

Outline

Registry Overview	Overview of VOB and view registration commands
VOB Registry Commands	Administering VOBs with registry commands
View Registry Commands	Administering views with registry commands
Registry Cleanup	Keeping the registry healthy and clean
View Cleanup	Remove references to incorrectly removed views
Move VOB	Process for moving VOBs
Move View	Process for moving views
VOB Backup and Restore	Process for backing up and restoring VOBs
View Backup Alternatives	Alternatives to full view backups
VOB Repair	Utilities to check for and repair permission and ownership in a VOB
