

ClearCase® Fundamentals

WINDOWS ■ BASE CLEARCASE ■ SNAPSHOT VIEWS

ID: CC-FUN-WIN-SNAP-BASE

Overview

This one-day, hands-on course covers basic ClearCase usage for all environments. For software developers, we recommend this course followed by the one-day *ClearCase Intermediate* course.

Prerequisites

- Basic knowledge of Windows interfaces
- Familiarity with Windows Explorer and accessing shared directories in a Windows Domain network
- No previous ClearCase experience

Objectives

At the end of this course, students will understand ClearCase concepts and will be able to use ClearCase tools and procedures to accomplish basic configuration management tasks.

Outline

Introduction	Introduction to ClearCase interfaces
VOB Basics	Overview of the ClearCase repository
View Basics	User access to ClearCase VOBs
Create Views	Create and remove base ClearCase views
Load Rules	Select data to load from VOB
ClearCase Explorer	Introduction to ClearCase Explorer
View-private Files	User private workspace
Checkout Basics	Checkout, checkin, and undo checkout
Hijack	Working offline with hijack
Version Tree	Version Tree usage
Add to Source Control	Add new files to a directory
View Update	Update view contents
Checked-out but Removed	Checked-out/removed and eclipsed files
Directory Modification	Changing directory structure in a VOB
Version Selection	Controlling version selection in views
Find Checkouts	Find and list checked-out elements
