

ClearCase® Fundamentals

WINDOWS ■ UCM CLEARCASE ■ DYNAMIC VIEWS

ID: CC-FUN-WIN-DYN-UCM

Overview

This one-day, hands-on course covers basic ClearCase usage for all environments. For software developers, we recommend this course followed by the one-day *ClearCase Intermediate* course.

Prerequisites

- Basic knowledge of Windows interfaces
- Familiarity with Windows Explorer and accessing shared directories in a Windows Domain network
- No previous ClearCase experience

Objectives

At the end of this course, students will understand ClearCase concepts and will be able to use ClearCase tools and procedures to accomplish basic configuration management tasks.

Outline

Introduction	Introduction to ClearCase interfaces
VOB Basics	Overview of the ClearCase repository
View Basics	User access to ClearCase VOBs
View Drive Letters	Mapping views to drive letters
Version Tree	Version Tree usage
Version Selection	Controlling version selection in views
