

ClearQuest® Test Manager

WINDOWS ■ ECLIPSE PLUGIN

ID: CQTM-WIN

Overview

This one-day, hands-on course covers ClearQuest Test Manager (CQTM) operation and development of CQTM assets for test management. The course includes executing automated tests authored in Rational® Functional Tester, Rational Robot, and Rational Manual Tester.

Prerequisites

- Basic knowledge of Windows interfaces
- Familiarity with Windows Explorer
- No previous ClearQuest or Test Manager experience

Objectives

At the end of this course, students will understand CQTM concepts. They will be able to use CQTM to manage manual and automated test procedures and to create test asset hierarchies.

Outline

Introduction	Understanding the Workbench and the ClearCase perspective
ClearQuest Basics	Basic ClearQuest record operations
CQTM Overview	Overview of CQTM record hierarchy and capabilities
Execute Tests	Execute test cases and suites; manage test case results
Import Test Log	Import test results
Create Test Log	Enter test results; create and link a defect
Reports	Run CQTM Queries, charts, and reports
Test Suite	Create test suites from existing configured test cases
Configured Test Case	Create configured test case for existing test case; associate test scripts
Test Case	Create test case for existing test plan
Test Plans	Create test plans for existing asset; re-parent test plans
Iterations	Create iteration records and specify iterations in test cases
File Locations	Create and use file locations for test scripts and test motivator files
Assets	Create an asset and a simple test plan hierarchy
Configurations	Create and use test platform configuration records
Computers	Create and use computer and computer group records
ClearCase Access	Specifying file locations to test data in ClearCase VOBs
