Rational Unified Process® (RUP)

TRAINING OVERVIEW

ID # RUP-OV/INTRO/FUND

Island Training offers three standard introductory RUP courses. For clients needing more in-depth RUP training, we recommend custom training and mentoring aimed at particular roles.

RUP Overview

This two-hour class provides an overview of RUP, via lecture and discussion.

Recommended audience: General

Course Outline:
- What is RUP?
- The hump chart—phases and iterations
- The hump chart—disciplines
- Sample RUP project patterns

RUP Introduction

This half-day class provides an overview of RUP and an introduction to tool navigation and development cases.

Recommended audience: Project teams starting to use RUP

Course Outline:
- What is RUP?
- The hump chart—phases and iterations
- The hump chart—disciplines
- Sample RUP project patterns
- RUP development cases
- What is the RUP tool?
- Navigating the RUP tool
- Roles and workflows in RUP

RUP Fundamentals

This one-day class provides an overview of RUP, an introduction to tool navigation and development cases, and a half-day of tailoring the RUP process.
