
UCM/ClearQuest® Fundamentals for Windows

Overview

For UCM users integrating with ClearQuest, this one-day, hands-on course is the recommended follow-on to the *ClearCase Fundamentals* course.

Sites adopting UCM only should take the one-day *UCM Fundamentals* course. Sites adopting ClearCase only should take the one-day *ClearCase Intermediate* course. Power users should refer to the *Curriculum Overview* for other courses in the ClearCase, UCM, and UCM/ClearQuest Integration tracks.

Prerequisites

ClearCase Fundamentals course or equivalent ClearCase experience.

Objectives

At the end of this course, students will understand UCM concepts and their role in configuration management. They will be able to use ClearCase, UCM, and basic ClearQuest tools and procedures in an integrated work environment.

Outline

UCM overview	Overview of UCM terms, objects, and tools
Project Explorer	Basic usage of the UCM primary interface
Create view	Create a UCM view
Create stream	Create a UCM stream
Join project	Use the Join Project wizard to set up streams and views
ClearQuest/UCM logon	Logging on to ClearQuest from UCM
ClearQuest/UCM activities	Creating and working with ClearQuest activities in ClearCase
ClearQuest workon	Creating activities in ClearQuest
Rebase	Using the Rebase tool to update working environment
Advanced rebase	Overriding recommended rebase baselines
Deliver	Using the Deliver tool to submit work to project
Advanced deliver	Delivering individual activities
Developer review	Daily life cycle UCM/ClearQuest exercise
